EXECUTIVE INTEGRITY EVALUATIONS INCLUDED IN THIS SECTION

COVERAGE	**Task Coverage & SOW Progress**	Operational completion metrics tracking ROV and Diving tasks against planned scope.
DEFECTS	**Anomaly & Defect Priority Breakdown**	Active anomaly status distribution across Priority 1, 2, 3 and Observations.
CP SURVEY	**Cathodic Protection Potential (CP)**	Structural polarization measurements and sacrificial anode health evaluation.
MARINE GROWTH	**Marine Growth Survey Profiles (MGI)**	Depth-wise biological growth thickness profiles and hard/soft band classification.
SCOUR SURVEY	**Base Level & Seabed Scour Survey**	Platform leg seabed depression readings compared against allowable scour thresholds.

QUALITY ASSURANCE & DIGITAL ARCHIVE VERIFICATION

1. All visual inspection records, dimensional measurements, cathodic protection surveys, and anomaly logs contained within this compilation have been verified against applicable offshore integrity specifications.
2. This document represents the official and concluded Final Inspection Datasheet package.
3. Raw inspection sensor streams, video logs, and photographic media have been archived securely.
